Website: <http://kjin.rs>, Fax: **+381 112060918**

VI.4.3) Rights protection procedure

Precise information on the deadline(s) for the protection of rights:

A request for the protection of rights can be submitted during the entire public procurement procedure, unless the ZJN (Law on Public Procurement) has specified otherwise, and no later than ten days from the date of publication on the Public Procurement Portal of the decision of the contracting authority ending the public procurement procedure in accordance with the ZJN. A request for the protection of rights contesting the actions of the contracting authority in relation to the determination of the type of procedure, the content of the public invitation and tender documentation will be considered timely if it is received by the contracting authority no later than three days before the end of the deadline for submission of bids, i.e. applications, regardless of the method of delivery. A request for the protection of rights, contesting the actions of the contracting authority taken after the end of the deadline for submission of bids, is submitted within ten days from the date of publication of the decision of the contracting authority on the Public Procurement Portal, i.e. from the day of receipt of the decision in cases where publication on the Public Procurement Portal is not provided for by the ZJN. After the expiration of the deadline for submitting a request for the protection of rights, the applicant cannot supplement the request by presenting reasons related to the actions that are the subject of dispute in the submitted request or by contesting other actions of the contracting authority that he was or could have been aware of before the end of the deadline for submitting the request for the protection of rights, which he did not point out in the submitted request.

The request for the protection of rights cannot contest the actions of the contracting authority undertaken in the public procurement procedure if the applicant knew or could have known the reasons for submitting the request before the end of the deadline for submitting the request, and the applicant did not submit it before the end of the deadline. If, in the same public procurement procedure, a request for the protection of rights is submitted again by the same applicant, the actions of the contracting authority that the applicant knew or could have known about when submitting the previous request cannot be contested in that request. Possible deficiencies or irregularities in procurement documentation that were not pointed out in accordance with Article 97 of the ZJN, cannot be contested in the rights protection procedure. The contracting authority shall publish a notice of the submitted request for the protection of rights on the Public Procurement Portal no later than the day following the date of receipt of the request for the protection of rights. The submission of a request for the protection of rights prevents the continuation of the public procurement procedure by the contracting authority until the end of the procedure for the protection of rights. The request for the protection of rights must contain the information from Article 217. of the ZJN. If the applicant undertakes the actions in the procedure through an attorney, he submits, together with the request for the protection of rights, an authorization for representation in the procedure for the protection of rights. The applicant who has a place of residence or domicile, i.e. place of residence abroad, is obliged to appoint a representative in the request for the protection of rights to receive documents in the Republic of Serbia, along with providing all the information necessary for communication with the indicated person. When submitting a request for the protection of rights to the contracting authority, the applicant is obliged to submit proof of payment of the fee. Evidence is any document from which it can be determined that the transaction was carried out for the appropriate amount from Article 225. of the ZJN and that it relates to the subject request for the protection of rights. Valid proof of the payment of the fee, in accordance with the Instruction on the payment of the fee for submitting a request for the protection of the rights of the Republic Commission, is published on the website of the Republic Commission.

Amount of the fee:

I. If the request for the protection of rights is submitted in accordance with Article 214, para. 2. and 4. and Article 215. of the ZJN:

- The fee is 120,000 dinars, regardless of the amount of the estimated value of the procurement.

II. If the request for the protection of rights is submitted in accordance with Article 214, paragraph 3. of the ZJN:

- The fee is 0.1% of the estimated value of the procurement and a maximum of 1,200,000 dinars, if the estimated value of the procurement is greater than 120,000,000 dinars.

- The fee is 120,000 dinars if the sum of the estimated values of all contested lots is not greater than 120,000,000 dinars (if the public procurement is structured by lots).
- The fee is 0.1% of the sum of the estimated values of all contested lots and a maximum of 1,200,000 dinars, if that value is greater than 120,000,000 dinars (if the public procurement is structured by lots).

The request for the protection of rights is submitted electronically through the Public Procurement Portal simultaneously to the contracting authority and the Republic Commission, whereby the day of submission through the Public Procurement Portal is considered the day of receipt.
